COLLECTION PANAMA
AUTUMN 2018

History, a touch of nostalgia and the here and now are combined in a pulsating mix. Central America was the inspiration for the concept of this collection PANAMA.

Panama does not only unite the Atlantic with the Pacific Ocean, but its capital also combines modern architecture with old colonial style buildings. Bold sky scrapers harmonize with traditional architecture dominated by colour and charmingly adorned balcony railings. A myriad of small islands and the rain forest with abundant foliage plants create a tropical-Caribbean oasis which could hardly be more diverse.

The combination of the traditional, the plain lines but also the modern materials form a very enthralling and appealing mix – captured by the fabrics in Collection PANAMA. The six fabrics made of Trevira CS and polyester FR display a strong appearance with an international attitude. They are perfectly suitable for commercial interiors and have excellent care properties.

A collection as multifaceted, as outspoken and cosmopolitan as Panama City.

Avenida Balboa trails impressively and elegantly along the shore of the Pacific. The leafy opulent coastal strip was the inspiration for the plain velvet BALBOA. This distinctive fabric woven from Trevira CS fibres impresses with a high pile and the feel of cotton velvet. Distinctively and naturally it fits each shape of furniture. The striking colour palette consisting of 32 colourways shines with facets of green and blue as well as „colourful darks“ – dark hues, deep and intensive with a touch of mysticism.

Tropical flair and a manifold flora; all this is reflected in the decorating fabric CABANA. The large design of banana leaves boosts the visibility and becomes the eye-catcher of the collection. The natural interplay of light and shadow in the leaves produces depth and a three-dimensional look. To achieve this effect, it is necessary to use an intricate weaving construction of several weft yarns. As different as the seven colour combinations may be, yet they have a common beautiful light-dark contrast with fine gradations. The clear-cut alignment is reminiscent of etching which lends the fabric a touch of nostalgia.

CARMEN

6 colours
Width 140 cm / 55" ↔
100 PES TREVIRA CS

Sober, sophisticated and very decorative; the upholstery fabric CARMEN presents itself with a fine, striped alternating design. The reps and sateen weave produces an elegant structural interplay, underlined by contrasting colours. A modern striped design which is refreshingly different due to the bold colour combinations such as for example coral red in combination with aqua. Furniture pieces can skilfully be showcased with CARMEN.
